Data storage and processing

Data storage

- The **main contractor** stores data on the stay of persons on the construction site **during the construction works and for 4 months** after the completion of the construction works (**§ 25[11] of the Taxation Act**).

- **The Estonian Tax and Customs Board** stores data on the construction project for 7 years from the date of completion of the project.

Data processing

- When processing the personal data of people working on a construction, the **European Union's General Data Protection Regulation (GDPR)** must be complied with.

- The processing of personal data is permitted only where there is a legal basis to do so or if the data subject has given their consent for a specific purpose. When processing data, its security must be ensured, and the data may only be used to fulfil obligations arising from the law.
